

The West Virginia Academy of Eye Physicians & Surgeons is offering the opportunity for exhibiting and/or sponsorship at our 2019 Annual Scientific Meeting to be held June 7-9, 2019 at The Stonewall Resort in Roanoke, WV. Attached in this email is the sponsorship form that explains all the opportunities available to you. Some recognitions include:

- Recognition in the final program brochure
- Meeting signage recognizing your sponsorship
- Website recognition on the WVAEPS site and on the WVAEPS Facebook site.
- One 6 ft. exhibit table with one standard electrical outlet
- Attendance to events that are not sponsored by other vendors in order to network with physicians from WV and surrounding areas.

The purpose of our scientific meeting is to focus on advancements to the treatment of eye diseases throughout different parts of the eye and to make ophthalmologists aware of current sub-specialty care methods or new treatment methods. By sharing the advancement of treatment methods and their own experiences, ophthalmologists make a better decision related to the needs of their patient.

We anticipate at least 30 physicians from West Virginia, and surrounding areas along with their ophthalmic technicians and administrators. Our preliminary budget projects our expenses to be approximately \$42,000.

We appreciate your sponsorship. Please feel free to contact me if you have any questions.
